

Our samples have a high informative and educational power counting all with high quality signage that explains each and every one of the aspects and elements of the sample.

The contracting of the sample, once installed, is free to manage economically from the public, may if he deems it appropriate, establish an entry price to support funding and / or reached agreements with potential sponsors.

Economic valuation of exposures when hiring will depend on several factors, such as exposure time, the place, the added complementary services and / or facilities of the contractor.

Our exposures require about eight hours of assembly and disassembly about five on average.

They can be adapted to the spaces available, provided that basic security conditions for both the sample and ensure the visitor.

Samples are designed for installation in confined spaces and always include:

- ✓ Assessment of the room.
- ✓ Planning and adequacy of exposure.
- ✓ Liability Insurance.
- ✓ Transportation.
- ✓ Assembly and disassembly.
- ✓ Diems and lodging.

Other options we can offer in addition:

- Sound atmosphere.
- Car stereos.
- Public Signage: milestones, posters orientation ...
- Catalogs and / or brochures of hand.
- Participation commissioner in papers or roundtables
- Specific workshops to schools, social groups, general public.
- Dramatization with actors (in Spain only)

Requirements by the contractor:

- ✓ Adequate space for installation of the parts.
- ✓ Formalization by contract.
- ✓ Insurance against theft.
- ✓ Security on the premises (to prevent theft and / or vandalism).
- ✓ Down payment

The minimum contractual period is three days in the Iberian Peninsula. The maximum period would be to agree.

There are no restrictions to move the sample at international level.

The sample includes the items listed in each case and can adapt to available space or agreement with the customer.
